

Project funded by the EEA and Norwegian Grants 2014-2021 through the application of "Improving Efficiency" projects Energy"

Title project: "Modernization of the public lighting network from the commune Celaru, the county dolj"

Beneficiary: Celaru commune

Hall village Celaru announce end implementations project: "Modernization the network of lighting public from common Cellaru, County dolj " project financed with the support of grants granted by Iceland, Liechtenstein and Norway through the EEA financial mechanism 2014-2021, within the "Energy Program in Romania".

The objective of this project is: "Increasing the energy efficiency of public lighting systems, especially those with high energy consumption and reducing carbon consumption by modernizing the lighting system."

Expected results of the investment project to be achieved by making the investment are:

1. Reduction of the annual primary energy consumption in public lighting in CELARU commune from 294,336.00 (kWh/year) - the value before the implementation of the project, to 81,912.60 (kWh/year), by creating a new public lighting system in the targeted area of project with 1317 LED lamps.
2. Reduction of the greenhouse effect, from:
 - 90.06 tons of CO2/year - value before the implementation of the project
 - TO
 - 25.06 tons of CO2/year – value proposed to be targeted after the implementation of the project, by replacing a number of 1317 LED lamps.

The total value of the project is 1,220,801.13 RON , of which the non-refundable amount, financed by the project, is 1,035,234.90 RON , representing 84.80% of the project value, and the own contribution is 155,938.14 RON , respectively 15.20% of the project value.

The project implementation period is 28 months, between 27.11.2020 and 31.03.2023 .
